NOV 26 2002

DIV. OF OIL, GAS & MINING

State of Utah DOGM

Lynn Kunzler

Thank you, for meeting us on November 19, 2002. Since you were at the Peoa quarry we cleaned out the front of the culvert. It is draining nicely now. I had Paul spread some more seed on the part next to the fence. I believe that every thing is done that you have ask us to do in this location.

Heber; we installed the signs while you were there. The same day I cut the water bares in the road deeper to insure that they were working properly. I then cleaned out both sediment traps. I believe that everything is done that you have ask us to do in this location.

Thank you for your courteous explanation of what was needed to stay in compliance with the State.
